Instant dryness, now within your reach.

Great news for people suffering from incontinence problems, TENA's Twin Core absorption technology along with its Instant Dry Layer, provides TWICE the speed and capacity of urine absorption as compared to ordinary products, thus ensuring maximum leakage security and skin dryness. Besides, its Wetness Indicator notifies when a pad needs changing, so one is safe from skin infections.

The Flexifit Waist Elastics ensures better comfort and the Superfit Band allows fixation tapes to be readjusted as and when required.

Buy a Tena Slip Super Unisex Adult Incontinence Pad today and put your incontinence troubles to a peaceful sleep.

The World's #1 in Adult Incontinence Care
For a free sample, E-mail at enquiry@tenaindia.com, call (022) 67049771 or sms TENA@6388.

Available at all leading chemists and retail stores

Urinary Incontinence is loss of bladder control
